

## **BPA CRM PARTNER PROGRAM**

BPA Solutions has developed a very attractive partner program specifically tailored to Microsoft partners. Increase revenue in becoming a BPA CRM partner.

### **Agent / Reseller**

You are a business consulting company or other agent that want to position BPA CRM to your customers. The customer will order directly from BPA Solutions.

### **Integrator / Value Added Reseller**

You are a company dealing with SharePoint technologies and wish to resell and integrate BPA CRM to your customers. The customer may order directly from yourself or BPA Solutions.

### **Technical**

You're an ISV, developing company or solution provider who wishes to add value to BPA CRM.

### **Hosted Service Provider**

You are a hosted service provider who is looking to provide BPA CRM in a hosted environment to your customers. BPA CRM can be hosted in a shared hosting environment.

### **Distributor**

Your company would like to take benefits from its network and deliver a unique CRM application to indirect business partners and end customers.

## **About BPA Solutions**

BPA Solutions is a leading provider of out-of-the-box Business Applications built on SharePoint Technologies. BPA Solutions was founded in 2001 and is Microsoft Gold Certified Partner.

## **About BPA CRM**

Award-winning BPA CRM is a unique and complete CRM solution built on SharePoint (WSS & MOSS). BPA CRM successfully passed the Microsoft Platform test for ISV Solutions. BPA CRM, unlike many CRM solutions, is a very user friendly, affordable and 100% customizable solution that will drive user adoption, maximize rapidly one's organization SharePoint investment and lower its CRM costs.

## **Benefits of BPA CRM Partner Program**

By reselling BPA CRM, you'll be able to increase revenue rapidly in a large demanding market, deliver out-of-the-box applications that increase productivity for your customers, deliver related additional products and services and receive high sales incentives.

BPA CRM is built on the most successful business collaboration platform – SharePoint; its affordably priced, easy to use, easy to integrate, easy to customize and easy to align with business processes and it fills a gap that currently exists within the Microsoft CRM market.

## **Become a Partner**
